

WHY SELECT ALPINE TECHNOLOGY?

► Why you should select Alpine Technology as your WASTE INDUSTRY total technology vendor.

We have the full complement of integrated technology to guarantee your success.

- **Office** - Billing, Dispatch/Operations, Contracts, Work Order/Work Flow...
- **Truck** - GPS, Maps, Images, Pictures, GPRS, Scales, RFID/Barcode...
- **Route Optimization** - Suggested positioning, High-density, Point-to-Point, Mapping...
- **Website** – E-commerce, Starts/Stops, Invoices/Online Payment, Special Services...
- **Other** – Fleet Maintenance, Scale-house, Payment, Accounting & City Interfaces...

We have an A+ track record. Over the past 32 years, we have been project leaders in eight countries with complex implementations for government (8), corporate (10) and independent (400+) and have “never failed” to comply with project specifications.

We have experience. Our 25+ developers and consultants worldwide have 200+ years of combined waste industry technology experience.

Support Services. We cover the globe with support offices in the US, London & Sydney, covering every time zone.

We offer ongoing education through on-line forums, regional and national seminars.

International. Our products are multi-lingual and support international formats.

Hosting. We offer the flexibility to run in your office, deploy through the web or be hosted on our “Always On” AlpineLive servers as a license or as “Software as a Service”.

Conservation. We provide low cost **GreenAware** products such as EPA Tracking and Recycling solutions that help clients improve our global environment.

Our Empowerment Tools allow cost efficient customizations without affecting Core upgrades.

► Why should you select RAMS-Pro as your office solution.

The RAMS-Pro efficient Service Diagram provide customer answers twice as fast.

Our highly respected **Contract\Work Order\Work Flow** system is the best on the market.

RAMS-Pro has Residential, Commercial and Industrial operational specialties that are scalable from single to multi-office, regional to large scale central office deployment.

Design, print and export reports with our built-in full function ad-hoc report writer.

► Why you should select On-Route as your route solution.

Design for the specialties and harsh environment of the waste industry, On-Route is continually improved and supported by Alpine Technology.

Arial view hybrid map shows service images, proof of service and configurable action keys for service exceptions and real time synchronization with the RAMS-Pro office system.

A three year no-fault warranty is included on all ruggedized Tablet's and PDA's.
